

Test Program FAQs

This document contains sample Operations FAQs for testing PDF ingestion, chunking, metadata storage, and grounded retrieval. The information is fictional and should be used only for development tests.

1. When does the program start?

The program starts on Monday, August 10, 2026.

2. What time is the weekly session?

The weekly session is held every Monday at 7:00 PM Cairo time.

3. Where will the sessions take place?

All sessions will take place online through the program meeting link.

4. When is the weekly task deadline?

The weekly task must be submitted before Friday at 11:59 PM Cairo time.

5. Where should learners submit their tasks?

Learners should submit their tasks through the internship platform.

6. What should I do if I miss a session?

Review the recorded session and contact the Operations team if you need further help.

7. Can I submit a task after the deadline?

Late submissions require approval from the Operations team.

8. Who should I contact for technical questions?

Send technical questions to your assigned mentor.

9. Who should I contact for administrative issues?

Post administrative or account-access issues in the official internship group and mention the administrators.

10. What happens when the chatbot cannot answer?

The chatbot should say that the answer is not available in the approved materials and request human support.
